

Want to find out more about your local wildlife?

...Come wildlife watching with Ian & Alex!

Two experienced and enthusiastic local wildlife photographers and wildlife spotters are keen to find local people with a mutual interest for wildlife. We want to form a social group of people to join us at least once a fortnight in our local forests early morning or evening, for a free, informative guided walk and the chance to see, photograph and learn about the exciting wildlife in Primrose Wood or Delamere- from Owls to Polecats!

No previous experience is required- interested beginners are very welcome, as are novices and experts keen to join others. You will improve your knowledge of the local wildlife, and your camera skills with our coaching.

Bring a camera, walking boots, old clothing and a smiling enthusiastic face as we go off the beaten track and explore habitats and parts of the forest you didn't know existed!

For more information about joining us for our first meet:
Call Alex on 07891841376

Or email: alex@cheshire-wildlife.co.uk

We look forward to hearing from you! Don't miss out!
